

TGA APPROVED COVID-19 CLAIM DISINFECTANTS & HAND HYGIENE PRODUCTS

Globally approved and used in airlines across the world, Callington's Netbiokem DSAM is a ready to use, 2-in-1 high performance disinfectant cleaner for all hard surfaces. It provides broad spectrum disinfection in industrial, institutional, healthcare and hospitality settings.

Netbiokem DSAM kills SARS-CoV-2 (COVID-19 virus) in 2 minutes. The product is ideal for disinfecting and cleaning of high touch points within hotel establishments ranging from bars, restaurants, furniture, fixtures, doors, bathrooms, lifts and lobby areas. Netbiokem DSAM is also effective on bacteria (*Salmonella*, *E.coli*), fungi and mycobacteria making the product even more suitable for the hotel and hospitality industry.

- Ready to use, 2-in-1 cleaner and disinfectant, eliminating the need for pre-clean process
- Australian TGA Approved for COVID-19 claim (ARTG No. 336972)
- Kills SARS-CoV-2 (COVID-19) virus in 2 minutes
- Non-flammable and non-toxic formulation, safe to use
- No damage or discolouration to any surface, as per Boeing and Airbus aircraft material compatibility tests
- 100% Australian made and owned
