

OPEN SPACE PLAN 2018 - 2028

OPEN SPACE PLAN

In the future, areas of the City of Marion will subject to increasing housing densities, specifically along Marion Road and around Tonsley. Council will need to proactively respond to higher density urban development in these areas and influence the appropriate provision and quality of open space and lifestyle opportunities.

It is important to not only have a good provision of open space but also consider the quality of the city's reserves to provide flexible open space that compensates for the lack of private open space.

Access to local parks that provide opportunities for play, recreational fitness activities and non-organised sport will be key design elements to create liveable communities.

Consideration will need to be given to the population and the character of the surrounding area when planning for open space developments. A 'needs based' assessment that considers the socio-demographic composition of the population will assist with options for developments.

The Open Space Plan has nine focus areas to renew, develop and improve open space within the City of Marion. The following objectives are proposed against each focus area.

Open Space is any piece of City of Marion owned land that is accessible to the public and is not a building, that provides opportunity for recreation and / or conservation.

Open Space can include:

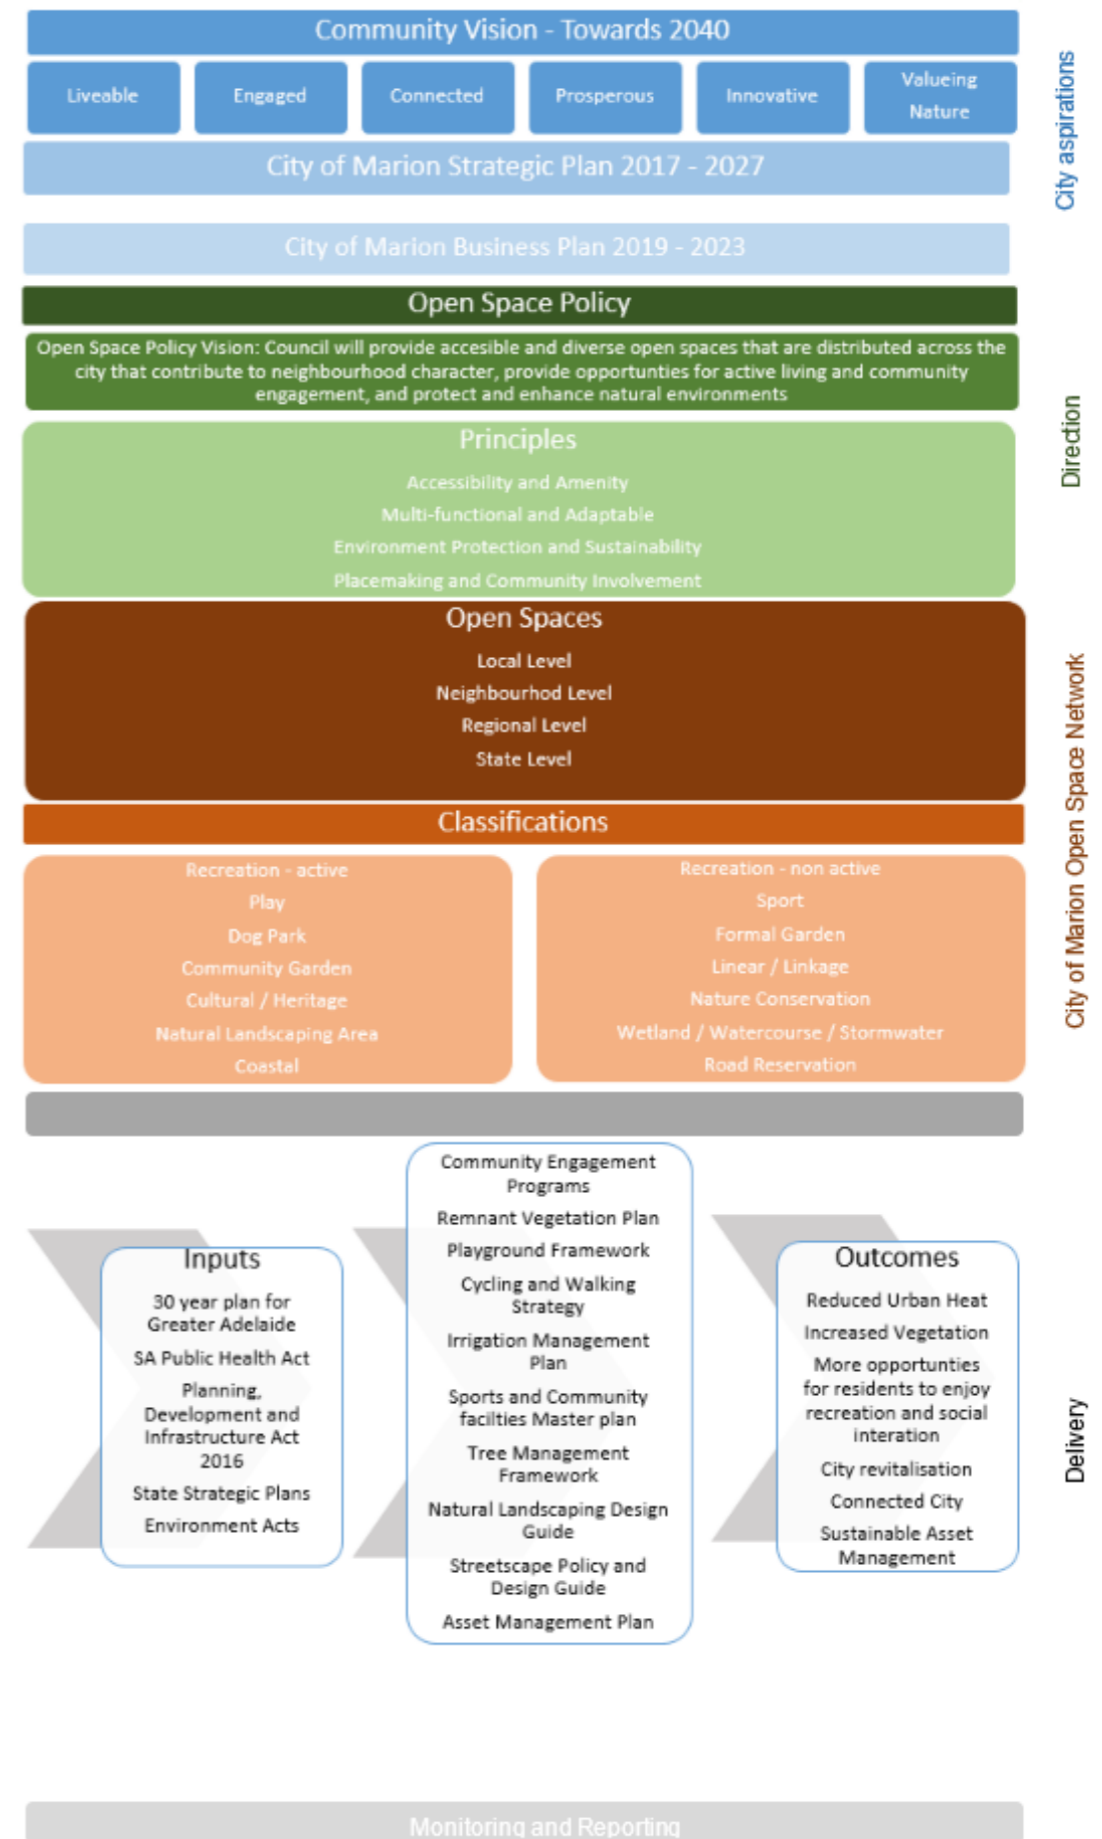

- Green space, including reserves and community gardens
- Playgrounds and Youth Recreation spaces
- Public plazas
- Community Courts

For the purpose of this plan, Open Space is not a verge or roundabout, unless specifically mentioned.

Focus Area	Objective
Low Open space areas	Improve the provision of open space in the areas with low provision across the City.
Environmental needs (people and nature)	Strengthen biodiversity, ecosystems and natural settings for our residents and the environment.
Open space activities	Create a vibrant city through the development, irrigation and renewal of open space to encourage active and healthy lifestyles and connect communities.
Partnership Projects	Develop partnerships to support the delivery of open spaces to maximise community outcomes.
Linkages and access to open space	Improve connections and access to open space
Promotion of Open Space	Improve community awareness of open space through effective marketing. Improve community awareness in open space through informative signage
Innovative use of open space	Create and enhance open spaces with the development of innovative treatments and activities to encourage healthy lifestyles
Integration with other open space related programs	Ensure a holistic and integrated approach to open space developments through considering all of Councils open space related programs and smart cities programs.
Asset Management	Improve asset management through the provision of planning and maintenance programs

A comprehensive review of all of City of Marion's open space connected these focus areas to the City of Marion vision, strategic and business plans to identify open space projects.

The Open Space Policy (2018) underpins the Open Space Plan, aligning a hierarchy and classification to each project.

CONSIDERATIONS

The City of Marion is focussed on achieving an equitable spread of appealing and functional open space across the city. Consideration has been given to achieving equitable distribution of facilities across the city such as basketball courts, fitness nodes, BBQ's and other recreational sport facilities.

Analysis considers current and future needs of the community and where there is open space to meet these considerations, or what is required for this to occur.

Specific consideration has been given to the following when developing the Open Space Plan:

QUALITY OF OPEN SPACE

1. Council will create accessible open spaces that provide quality opportunities for residents.
2. Council will support the development of quality open space that corresponds to the hierarchy and classifications set out in the Open Space Policy
3. Maintenance of open space will reflect the quality determined by the open space and playground policies.
4. Open Space design will consider residents need to value and interact with nature.

OPEN SPACE ENGAGEMENT METHODOLOGY

1. A methodology framework will be created
2. Residents will be invited to be involved with open space projects that have a value of \$50,000 or more
3. Community assistance to support design of open space will be supported in line with the methodology frameworks for open space and playgrounds
4. Where opportunity exists, Council will encourage local groups and schools to adopt open spaces to assist with care of trees and landscapes to create a sense of community ownership

INFRASTRUCTURE

1. Toilets will be considered in Regional Open Spaces and Playgrounds and according to the toilet provision statement. See Appendix A.
2. Car parking should be considered at Regional Open Spaces and Playgrounds.
3. Exercise equipment will be considered where there is a gap in provision and suitable open space exists.
4. WSUD opportunities will be explored throughout all open space design.
5. Youth facilities such as skate parks will be considered after internal and external consultation.
6. In principle, the City of Marion will provide a seat and / or drink fountain at all accessible open space. These items will be considered on a case by case basis and based on classifications and hierarchy.

EQUITY OF OPEN SPACE

1. Respond to community needs such as age or disadvantage when planning open space

NATURE PLAY

1. The City of Marion places a high value on nature play and will develop the open space plan to ensure that nature play opportunities are explored.

CULTURAL AND HERITAGE VALUES

1. Council will consider appropriate locations to reflect Cultural and Heritage values through infrastructure, interpretive signage or design.
2. Council will liaise with Cultural and Heritage groups to develop ideas within Open Space on a case by case basis.

SAFETY

1. Council will provide a range of recreation opportunities across the city, including fenced play areas for young children. Fencing will be provided if a safety need exists or where there is a lack of provision of a fenced play area.
2. Where appropriate, open spaces will be designed to allow for passive surveillance and other CEPTD principles.
3. Council will support community and internal programs that maximise use of open space.
4. Community involvement will be encouraged to maintain a sense of ownership.

Crown Street Reserve

CONSIDERATIONS

MANAGEMENT

1. Council will focus management resources according to the open space hierarchy.
2. Open spaces will be monitored to ensure they are fit for purpose.
3. Resources to maintain open space will be planned in the long term and monitored yearly.
4. Council will work with other authorities, such as DPTI, to ensure maintenance in open space is maintained to a quality level.
5. Open space will be designed with internal consultation to ensure tree and plant species are sustainable and appropriate.

OPEN SPACE ACTIVITIES

1. Activities provided in open space will cater for sport, recreational sport, leisure and play opportunities where appropriate.
2. Where appropriate recreational sport infrastructure such as sport goals will be considered.
3. Community courts, providing for tennis, basketball and netball will be strategically upgraded and constructed, responding to gaps in provision.

CHANGES TO OPEN SPACE

1. Changes to open space hierarchy, functionality, and decisions about optimisation will be considered based on the following
 - a. Open Space provision in the surrounding area
 - b. Provision of particular activities in the area
 - c. Appropriateness of the open space for development (ie small)
 - d. Community demand
 - e. Urban heat and tree canopy cover in the area
2. Council will consult with local communities prior to changing the use or functionality of open space, according to the Open Space Methodology.

SIGNAGE

1. All playgrounds and regional open spaces will have naming signage which incorporates regulation needs.
2. Signage should be consolidated in open space to minimise visual clutter.
3. Interpretation of historical, cultural and environmental values can create interest within open space and will be considered in the design
4. Directional signage in linear open spaces should be considered.

LIGHTING

1. Security Lighting will be considered in open space where:
 - a. The open space is used as a pedestrian link to a community facility, public transport or commercial hub after hours.
 - b. There are no other effective measures to improve safety
 - c. Where there is strong community demand and considering a,b
2. Lighting which promotes facility use at night will be considered only in open space that is associated with major youth facilities such as skate parks, dog parks or that have major sporting facilities.
3. Open Space lighting should be consistent throughout the city and ensure maximum resilience to vandalism.

SUSTAINABILITY

1. Design principles for open space will consider environmentally sustainable principles and City of Marion policies and programs relating to the environment.
2. WSUD will be considered in open space design
3. The Tree management Framework will be considered in open space design
4. The Remnant Native Vegetation Plan will be considered in open space design

Oaklands Estate Reserve Stage 2

CONSIDERATIONS

IRRIGATION

1. Where suitable open space will be designed using the natural landscapes design and maintenance guidelines
2. Where irrigation is considered the irrigation guidelines should be applied

SHADE

1. Tree planting for shade will be considered at all open space developments.
2. Council will consider artificial shade in playgrounds at a neighbourhood level and above.
3. Shade in open space will be considered according to the open space service levels.

DOG FRIENDLY AREAS

1. The management of dogs in open space will be guided by Council's Dog exercise off leash and on leash areas.
2. In addition to dog parks, Council will provide dog friendly open spaces with infrastructure such as dog bowls, seating and trails that promote dog walking as shown in Appendix B.
3. Dog park provision that is formal off lead, fenced dog areas will be planned by Council with extensive community consultation.
4. Dog regulations will be clearly displayed at open space with playgrounds and other recreational infrastructure.

ADDITIONAL OPEN SPACE PROVISION

1. Where there is low open space provision in the City of Marion, Council may seek to obtain new open space.
2. Council may work in partnership with schools and other community groups to provide greater open space opportunities.
3. Council will work with new developments to provide the most suitable open space provision for that area.

ACCESS

1. Where access to open space is difficult, the open space plan will develop suitable access to open space.
2. The cycling and walking strategy will be considered when planning and developing open space to ensure access to open space along the network.

WALKING AND CYCLING GUIDELINES

1. Development in open space will prioritise the action plan for implementing walking and cycling improvements in the City Of Marion (Appendix C)

SMART TECHNOLOGY AND DATA

1. The inclusion of smart technology & infrastructure will be considered in open space development to assist with achieving our 'Smart Places' pillar within the City of Marion Smart Strategic Plan.
2. Smart Places harness data, technology and infrastructure to support our community to flourish through improved service delivery and help to achieve our strategic community vision themes.

Hazelmere Road Reserve

OPEN SPACE PROGRAM

PLANNING

The Open Space Plan provides an eight year plan of works to ensure that the City of Marion plans, manages and develops a variety of open space to improve sustainable environmental outcomes and our community's individual and collective health and wellbeing.

The Open Space Plan is prioritised to coincide with the endorsed Playground program and other open space works. Where a playground is being designed and constructed, the open space surrounding the playground has been timed to complement that development.

The Open Space Plan is divided into Wards and is attached.

 To be determined

 Drink fountain only

Red Must be completed in that year to align in with playground upgrades

TOILET PROVISIONToilet Location

The provision of toilets within our open spaces is primarily based on the service levels within the Open Space and playground Frameworks. Prioritisation regarding the placement of toilets is given to the following open spaces within the service level hierarchy:

- State level open space
- Regional Playground sites
- Regional Open Space

The placement of toilets at open spaces which have not been classified within the above service levels can be considered on a case-by-case basis have regard to the following:

- The minimum service level is a Neighbourhood level open space or playground
- The reserves includes facilities with longer stay amenities such as sports courts, barbecues or a medium to large playground
- It is reasonable to expect that people would be using the park for extended periods and therefore a public facility extends the use and enjoyment of the space.
- A number of requests have been received and an assessment has shown that the site has high usage rates.

Opening Hours

- Council's toilet facilities should be made available during the times when the activity that occurs at the site can happen safely and there is reasonable surveillance over the land.
- At the very minimum, Council's public toilets should be open from 6am to 8pm, unless specific circumstances warrant otherwise.

Signage

Signage should be provided to each facility. At a minimum, signage associated with public toilets should include:

- On-site signs - Located on or around the facility itself and should be clear and legible and indicate the following:
 - male/female/unisex facilities
 - Opening hours
 - Disability access (if applicable)
 - Baby change facility (if applicable)
 - Contact details to report vandalism or maintenance issues
- On-line information – Council's website should provide a page dedicated to facilities in public open spaces and include the following information for each toilet:
 - The location
 - Opening hours
 - Facilities offered
 - Level of accessibility
 - Link to the National Public Toilet Map (www.toiletmap.gov.au)

In some cases, where toilets have direct access from a major public road, directional signage may be appropriate. A 'public toilet' sign could be attached to the street sign which points to the direction that the toilet is located.

DOG FRIENDLY AREAS

The management of dogs in open space will be guided by Council's Dog exercise off leash and on leash areas. These areas will be reviewed by the Community Safety team, in conjunction with Open Space and Recreation Planning.

Consideration should be given to making fenced playgrounds dog free areas. Community expectations within these areas is that children can play without interference with dogs. It is still expected that accredited assistance dogs as per section 21 of the Dog and Cat management Act 1995 will still be allowed access.

Formal Dog parks will be provided strategically across the city of Marion to provide formal dog off leash exercise areas. These formal dog parks will have the following attributes

- Perimeter fencing
- Air lock gates
- Drink fountains with dog bowls
- Seating

Construction of dog parks will follow the guidelines set out in "Unleashed: a guide to successful dog parks".

In addition to dog parks, Council will provide dog friendly open spaces within open space designated as off leash areas. These areas may have the following infrastructure to promote dog walking.

- Drink fountain with dog bowl
- Seating
- Trails
- Clear signage

Consideration should also be given to providing dog free areas.

WALKING AND CYCLING GUIDELINES

City of Marion

2018 – 2022

This document details options for improving the walking and cycling network in the City of Marion

Walking and cycling encourages healthy and active lifestyles, reduces traffic congestion and supports environmental sustainability.

The guidelines provide actions and priorities for delivering an improved walking and cycling environment. The guidelines can be found [here](#).

The Open Space Plan will

- Prioritise development of proposed regional and local networks
- Implement cycling and walking trails where corresponding open space is being developed

Trails will be developed to complement their hierarchy (either regional or local) and the environment in which they are planned.

Walking and cycling trails will be developed within the guidelines.
