Skin Cancer Symposiums are delighted to invite you to the upcoming course **Introduction to Dermatoscopy** and **Certificate of Skin Cancer Management** held at the state-of-the-art Whenua Pupuke Clinical Centre at North Shore Hospital, Auckland on 16<sup>th</sup> / 17<sup>th</sup> March 2024. Delegates can enrol for either or both days. The courses have been accredited by the Royal NZ College of GPs.

The **Introduction to Dermatoscopy** is designed to introduce the skill of dermatoscopy to beginners and upskill intermediates. Importantly, dermatoscopy is now recognized by the Australasian Melanoma guidelines as a grade A recommendation for all involved in the management of pigmented skin lesions. **Professor Cliff Rosendahl** from the University of Queensland has published extensively and is a world leader in the study of Dermatoscopy. He is a dynamic presenter who uses wit, and a sincere passion in his wish to pass on to colleagues the lifesaving skills and knowledge in Dermatoscopy.

The course will be highly interactive and is well reviewed. Currently we have taught in excess of 1000 GPs in NZ, >200 GPs in Melbourne and over 300 in the UK, with an average rating of 4.8/5 for the course.

All participants of the dermatoscopy course will receive a **complimentary MoleScope II Dermatoscope** (worth \$445).

The one-day Surgical Workshop is taught by senior melanoma, and plastic surgeons, and GPwSI. Groups (~6-8) of similar experience will be created. The content will be tailored to your group's needs from basic to advanced skills. A **free take home surgical training kit** (simulated skin, all necessary surgical tools and plenty of sutures) will be provided to all participants (valued at over \$300).

The Dermatoscopy early bird fees are:	GPs \$995 + GST	Registrars/Nurses \$895 + GST.
The Surgical fees are:	GPs \$995 + GST	Registrars/Nurses \$895 + GST.
