Who is Carers Australia?

If you care for a friend or relative or partner, but don't get paid for this work, Carers Australia is the organisation that looks out for you and your rights.

We lobby the government to try and make your life – and the lives of the people you care for – a little easier. We work with government and other organisations to develop programs that support the work of carers across Australia.

We work with the National Carer Network and other organisations to improve the lives of carers. There are 2.65 million carers in Australia – including 235,000 young carers – and we care about every one of them

Am I a young carer?

Young carers are people aged 12 to 25 years old who provide unpaid care and support to another person. They might care for people close to them who:

- Have a disability.
- Experience physical or mental illness.
- Is drug dependent.
- Are aged or an ageing relative.

It is important to know that some young carers may not identify as a carer. They may be supporting family members and not realise they are performing caring duties.

Young carers may do many things.

- They provide emotional and advocacy support.
- They help with personal care.
- They look after household expenses.
- Monitor medications.
- They do the everyday chores. They wash, they clean, they cook, they mow the lawn.

Young carers may be supporting:

- Family members like parents, siblings, cousins, aunts, uncles, or grandparents.
- A friend.
- A partner.
- A child.

Young carers may provide support every day, or every week, or only when they're needed.

What is the Young Carer Bursary?

The Young Carer Bursary Program supports young carers to either continue, or return to, their education. The program offers 1,000 bursaries a year. Each one is worth \$3,000.

The bursaries are not income tested. They are awarded on the basis of greatest need. The next round of applications will open on the 16 August 2021.

Why should I apply?

As a young carer, keeping up with your education and caring for another person can be hard. Trying to do both at the same time can cause financial problems.

The Young Carer Bursary will help you to remain in education or training while undertaking your caring responsibilities.

You can use the Bursary to pay for educational and training expenses, including:

- School fees,
- Laptops and software,
- Uniforms,
- Transport and accommodation,
- Respite care,
- Emotional support,
- Extracurricular activities.
