Overview for parents and students

This brochure contains information on courses offered by North Metropolitan TAFE as Vocational Education and Training Delivered to Secondary Students (VETDSS).

What is VETDSS?

VETDSS is a program delivered to school students as part of the Western Australian Certificate of Education (WACE).

VETDSS courses are specifically chosen to provide students with clear career pathways after high school. VETDSS courses give students practical skills and an understanding of what to expect from the workplace and, once completed, may provide credits towards other nationally recognised qualifications, or lead to employment.

North Metropolitan TAFE (NMTAFE) offers a range of courses and pre-apprenticeships as part of our VETDSS programs.

Why choose VETDSS?

- Gain a nationally accredited VET qualification and units of competency while completing your WACE;
- Develop practical, industry specific employability skills;
- Gain an understanding of the world of work, providing you with valuable experience to assist with planning and pursuing your career pathways; and
- Attend a NMTAFE campus one or two days per week to complete your course and participate in your normal school program on the other days.

Eligibility

NMTAFE offers VETDSS courses to all secondary school students throughout the Perth metropolitan area.

To be eligible to apply you must be:

- Completing Year 11 or 12 in 2022.
- An Australian Citizen, Permanent Resident or temporary resident holding one of the following visa types:
 - » Sub-class 309, 444, 785, 790, 820 or 826 visa;
 - » Secondary holder of a temporary visa of sub-class 457; or
 - » Bridging Visa E (subclasses 050 and 051) where the visa holder has made a valid application for a visa of subclass 785 or 790.

Fees and charges

Secondary school students undertaking VET courses as part of their secondary education including pre-apprenticeships in schools (PAIS) courses are exempt from tuition, resource and enrolment fees (excludes Fee for Service courses). However depending on the chosen course students may be required

to pay incidental fees, obtain a First Aid Certificate from an external Registered Training Organisation such as St John, purchase a uniform, protective equipment, text books or trade equipment/tools.

How to apply for a VETDSS program

Please contact the VET Coordinator at your school for information on how to apply.

Applications for 2022 open Monday 19 July 2021 and close Tuesday 31 August 2021.

Our VET Delivered to Secondary Students courses are extremely competitive, therefore it is recommended you provide as much evidence as possible to support your application. These documents must be uploaded when applying through our online application system.

To complete the application you will need:

- Western Australian Student number (WASN). This can be found on your school report or speak with your school's VET Coordinator;
- Unique Student Identifier (USI) number. If you have not already created an USI then you will need to visit www.usi.gov.au/your-usi/create-usi;
- Year 10 or 11 school report in an electronic format i.e. PDF ('C' grade or above in Mathematics and English is preferred but all applications will be considered);
- OLNA (Online Literacy and Numeracy Assessment) Report (if applicable);
- Parent/guardian email address and mobile phone number; and
- A Student Statement outlining why you should be selected to participate in the course (please note there is a limit of 500 characters that can be entered in this section).

The school will be asked to endorse and support the application before the selection program begins. For more information, please contact your school VET coordinator.

For further information regarding our VETDSS program, please contact

E VETDSS@nmtafe.wa.edu.au

Please note the delivery of VETDSS courses is subject to sufficient enrolment numbers and contingent on the support of the Department of Training and Workforce Development and although we do not anticipate (at this stage) any changes, we will not be able to confirm that these courses will run until late in 2021.

General Information

NMTAFE is the premier training organisation servicing the inner city and northern metropolitan area of Perth, with campuses in Perth, Mount Lawley, Leederville, East Perth, Nedlands, Joondalup, Clarkson, Balga and Midland.

Attending a VET Delivered to Secondary Students course

You are responsible for your own transport arrangements to and from the NMTAFE campuses.

You are also responsible for ensuring that you attend all scheduled classes, including those that may occur on a school designated pupil free day. Attendance will be recorded and any absences are reported to your school. The school's VET Coordinator will be contacted to discuss the appropriateness of a student continuing if there are repeated absences.

You are required to inform your lecturer in advance if you will be absent from any scheduled classes. Poor attendance may mean withdrawal from the course.

Student responsibilities

As a student attending a VET Delivered to Secondary Students course at NMTAFE, you will have the opportunity to learn in an adult environment with students of all ages and diverse backgrounds.

There is an expectation that when attending classes you will assume a greater responsibility for your own care and safety than may be the case when attending school.

As with all students enrolled at NMTAFE, you are expected to adhere to the [*Student Code of Conduct*](#).

While attending NMTAFE, you are under the supervision of the lecturer taking the class.

You will not be supervised during break times.

You are expected to remain within the college grounds unless you provide your lecturer with written notification from a parent/guardian or the school that you intend to leave the college during break times or earlier than the advertised class finish time.

Work experience

Some courses may involve work practice/experience to support the learning program. Under each course you will find details of any work practice requirements. You will be required to document work practice hours and provide your lecturer with a copy of your logbook. You will be responsible for arranging your own transport to and from the workplace.

What you will need to bring

Under each course you will find a list of items that you will need to bring with you to complete the course.

What you will need to wear

You are not required to wear your school uniform when on campus but you are expected to dress appropriately. Where special or protective clothing and/or footwear is required, it must be worn without exception. If you forget to bring protective clothing you will be excluded from the campus workshops/classes and your school will be informed.

Campuses

Balga

Our Balga campus is a hub of building and construction training where you can specialise in trades including bricklaying, carpentry, electrical, glazing, plumbing, plastering, tiling and craft trades, just to name a few. You'll learn in contemporary facilities and on state-of-the-art equipment, so you'll graduate with the industry relevant trades skills.

Balga is also home to lots of our international and migrant students who are learning English skills through the Adult Migrant English Program and the Skills for Education and Employment program.

Clarkson

Our state-of-the-art Clarkson campus is our main facility for trades training in Perth's northern suburbs, with a special focus on pre-apprenticeship courses including bricklaying, plastering, tiling, carpentry, joinery, metal fabrication, electrical trades, and more. Our dedicated workshops and open spaces for each trade mean you get to train in a real-world environment.

The campus is accessible via bus services from Clarkson train station.

East Perth

Located in the bustling business district, our East Perth campus is close to cafes, shops and public transport, including the free CAT buses.

Specialising in sustainability and renewable energy, building and construction, mining, surveying, engineering, science and technology training, our East Perth campus is our resources industry precinct. The campus is also home to two of our centres of specialisation, our Mining and Green Skills Training Centres.

Joondalup (Kendrew)

Our Joondalup campus enjoys a tranquil lakeside location, set among the birds, kangaroos and colourful native flora. We are also co-located with ECU, the WA Police Academy and the City of Joondalup in the Joondalup Innovation Hub.

Only a short walk from Joondalup's central business and shopping district, with convenient access to Joondalup bus and train station, connecting you to the city in less than 25 minutes.

Joondalup (McLarty)

Located on McLarty Ave in Joondalup, this campus specialises in health and wellness training. Featuring a state-of-the-art simulation hospital, the facility gives our enrolled nursing and health students a strong understanding of what it's like to work in a hospital environment. It is fully functional and even has the capability to operate as an independent hospital if required in an emergency.

The campus is conveniently located within a five minute walk from Joondalup train and bus station and Lakeside Joondalup.

Leederville

Located in the heart of Leederville, our campus is close to cafes, restaurants, shops and is just a short walk from the train station.

This campus has a special focus on human services, with training offered in community services, education, early childhood care, aged care, disability services, youth work and mental health.

Our creative music students also learn at this campus in our industry standard professional recording studio and live performance venue with full staging, lighting and sound production. We even host our very own student radio station, BOOM Radio, from this campus.

Midland

Our Midland campus is just five minutes from Midland station and the central shopping district, surrounded by the Blackadder and Woodbridge creeks in the heart of Perth's Swan Valley region.

The campus is a specialist METRONET Trades Training Centre, providing training to support the specific technical and support skills required for rail car manufacturing and METRONET maintenance.

Midland campus also features purpose built trade workshops, hairdressing salon, an operational nursery, and a conservation and land management site.

Mount Lawley

Mount Lawley campus is conveniently located just a five minute walk from the bustling Beaufort Street café strip and close to public transport.

Known for its focus on health services, our campus features a state-of-the-art simulation hospital. The facility gives our enrolled nursing and health students a strong understanding of what it's like to work in a hospital environment.

Campuses (cont.)

Perth (Northbridge)

The vibrant Perth campus is located in the centre of the cultural area of Northbridge and close to the heart of the city.

Perth comprises of five main buildings, each with excellent facilities that are all located in and around Aberdeen Street, just off William Street. The campus houses centres of specialisation in building and engineering, creative Industries, travel and tourism and english language and other languages.

The building at 30 Aberdeen Street houses training portfolios for the key skill areas of engineering, architecture design and building, and programs for the lifestyle industries including high tech massage and beauty therapy treatment rooms.

Please be aware that delivery of these courses is subject to sufficient enrolment numbers and contingent on the support of the Department of Training and Workforce Development and although we do not anticipate (at this stage) any changes, we will not be able to confirm that these courses will run until late in 2021.

* 2021 course fee

Automotive

RT0 52786

AUR20716 Certificate II in Automotive Vocational Preparation

The Certificate II in Automotive Vocational Preparation is an introduction into servicing, minor maintenance and repair of an automotive vehicle such as cars, identifying and inspecting mechanical and electrical components and systems of light vehicles, using and maintaining tools and equipment, workplace safety and more.

As an automotive student at NMTAFE you will enjoy access to an array of up to date automotive repair and diagnostic equipment and specialised workrooms and workshops. There is a current and emerging skills shortage in automotive which will lead to a greater chance of gaining employment in this industry.

Course overview

Campus	Midland
Start and duration	Year 11 or 12 start and 1 year (3 terms) duration
Day	Thursday or Friday
Work practice	Not applicable, however work experience placements are recommended. The work placement must be initiated by you in partnership with your school.
You must bring/wear	<ul style="list-style-type: none"> Personal Protective Equipment - steel cap work boots, safety glasses, long cotton work wear trousers and a cotton collared shirt Pens, pencils and an A4 folder
Incidental costs	Not applicable

Building and Construction

RTO 52786

52824WA Certificate II in Building and Construction (Pathway - Carpentry and Joinery)

Do you have a burning desire to work with wood or in the construction industry? When you complete the Certificate II in Building and Construction you'll be what employers are looking for as an apprentice carpenter and joiner.

Many employers now prefer apprenticeship applicants to have completed a qualification and this course will give you the skills, knowledge and behaviours to prepare you and make you more competitive when applying for apprenticeship positions. It will give you a better chance of gaining an apprenticeship and a flying start in learning a trade.

You will learn to use hand and power tools; construct wall frames; install flooring; interpret plans; measure and calculate the right amount of materials for the job; levelling operations; work with scaffolding safely at heights; and workplace health and safety.

Course overview

Campus	Balga, Clarkson
Start and duration	Year 11 start and 2 years (7 terms) duration
Day	Thursday (1st year), Friday (2nd year)
Work practice	In addition to attending classes you will be required to undertake 220 hours of work placement outside of class time. The work placement must be initiated by you in partnership with your school.
You must bring/wear	<ul style="list-style-type: none"> Personal Protective Equipment - steel cap safety boots, clear safety glasses, cotton drill shirt and pants, ear protection Tape measure, HB pencils, notepad

Education and Community Services

CHC22015 Certificate II in Community Services

Imagine being able to make a difference to people's lives every day you work. Begin your journey towards a rewarding career in Community Services with this introductory program.

This course will give you the practical skills, theoretical knowledge and confidence to continue study across the community services sector. Community Services involves working with a range of people including youth, aged, people with a disability, those with mental health or alcohol and drug issues, refugees, migrants and the homeless.

You will learn foundation skills in communication to prepare for work in community services, health and safety, and working with others. You will put these skills into practice with a short field placement. This will help you expand your knowledge and understanding in various community services areas.

Education and Community Services

RT0 52786

CHC30113 Certificate III in Early Childhood Education and Care

If you have a genuine interest and passion for the care and education of children up to the age of five then this expanding industry is for you. Our qualification will ensure you meet the high standards of education and care of children the industry demands. You'll learn how to interact and foster the development of children while working within legal requirements and ensuring the children's health and safety are not at risk.

As part of this course you'll undertake a supervised work placement where you get to use the skills and knowledge you've learned. You will need to obtain a Working with Children Check, a Federal Police Clearance and medical clearance before attending work placement. Under 18 students will be required to obtain a Federal Police Clearance and a medical clearance. You will work closely with children from different backgrounds and cultures, and provide care and support for them in various child care situations.

Course overview

Campus	Joondalup (Kendrew), Leederville, Midland
Start and duration	Year 11 start and 2 years (7 terms) duration
Day	Thursday (Leederville) or Friday (Joondalup (Kendrew) or Midland)
Work practice	In addition to attending classes you will be required to undertake a work placement. You need to complete 240 hours of placement (120 with under 2's + 120 with over 2's) over the duration of your course. This can be undertaken one day a week or in block weeks depending on the school/student timetable. Block weeks are normally undertaken in the exam weeks. The work placement must be initiated by you in partnership with your School.
You must bring/wear	<ul style="list-style-type: none"> • Closed in shoes • Pencil case with stationery supplies - scissors, ruler, eraser, pens, pencils, coloured texters and pencils • File with file dividers and lined paper for note taking • USB drive
Incidental costs	You will be required to purchase text books, more information will be given on the first day. Approximate cost of \$135.00.
Job outcomes	Successful completion of this qualification provides you with the opportunity to become an educator at an Early Learning Centre or community organisation such as a Supported Playgroup. For information about jobs and pathways, visit joboutlook.gov.au

Electrical and Electrotechnology

RT0 52786

UEE20511 Certificate II in Computer Assembly and Repair

If you love soldering and electronics parts, this is the perfect course for you. It will give you a foundation for further study in fields such as electrotechnology, electronics, computer assembly and servicing, radio communications, telecommunications, security and fire alarms and robotics.

Successful completion could lead to an apprenticeship or employment as a technician's trade assistant in these areas. Many employers regard basic training in electronic theory as a pre-requisite to employment. This course provides you with knowledge in basic DC circuit theory, hand skills and practical skills for the assembly, installation, repair and re-assembly of electronic and computer equipment, while working under supervision.

It provides a custom blend of DC circuit theory and engineering mathematical skills, along with electronic component identification and handling procedures. You'll also gain skills related to hand soldering, component placement and mounting onto a printed circuit board.

Electrical and Electrotechnology

RT0 52786

UEE20711 Certificate II in Data and Voice Communications

When you complete the Certificate II in Data and Voice Communications, you'll be flicking the switch on a career in electronics, as a data cabler or telecommunications technician (with additional training). You will gain the knowledge and practical skills to install and maintain telecommunication cabling, secure electro technological equipment, assemble and dismantle components, use cabling drawings, standards, codes and specifications, and workplace health and safety. It includes ACMA (Australian Communications and Media Authority) requirements for open cabler registration.

This course also gives you a pathway to the Electrical industry.

On completion of the Certificate II in Data and Voice, you will have completed 75% of the units of competency in the 1st year of an Electrical apprentice program. The Electrotechnology pre apprentice course only completes 50% of the units of competency in the 1st year of an Electrical apprentice program.

RT0 52786

HLT36015 Certificate III in Population Health

Interested in working in primary health, community health, allied health or health promotion? Then this is the qualification for you. The Australian health care sector is changing and in the future the focus for health will be away from the hospital setting and in the community. Preventative health, health screening and health education are key factors towards building a healthy society and keeping people well and out of hospital.

Complete a qualification that will prepare you to work in this diverse sector. The job and pathway opportunities can take you in many different directions including allied health, health promotion, primary care nursing, enrolled nursing, registered nursing, child health, community health, midwifery, marketing, alcohol and drug education, mental health, leisure and health, community services, disability work, aged care and youth health.

This course has a very practical focus and you will develop skills to encourage people to identify positive health related behaviours, take clinical measurements to collect information on a person's health status, provide health education, identify the social determinants of health and how they impact on individuals and communities, identify strategies and techniques to develop health education and promotional material and learn about the diverse primary care sector. Be one of the first to complete this course as an entry point into this exciting, developing area of health.

Fee for Service Course

RTO 52786

SIS30115 Certificate III in Sport and Recreation

Athlete Development Centre

NMTAFE delivers a range of qualifications in sport from the Certificate III in Sport and Recreation, Certificate IV in Sport Development, and Diploma of Sport. With strong partnerships in the sports industry, students receive relevant and industry-standard training to prepare them for employment in recreation centers, sporting organisations, and sports clubs. We are offering this unique program again in 2022. The Certificate III in Sport and Recreation, along with your WACE, will ensure you are well prepared for entry into the Certificate IV in Sport Development and/or the Certificate III and IV in Fitness.

After gaining skills in sports coaching, umpiring, sports conditioning, social media, sports competitions, and working professionally in sport, you can transition to an entry-level job as sport and recreation assistant, recreation officer, leisure services officer, or community activities officer or continue with further study in sport and/or fitness at NMTAFE.

Course overview
