1.0 Introduction

Australian Gambling Statistics (AGS) is the official collection of Australian data on legalised regulated gambling. The AGS is produced by the Queensland Government Statistician's Office (QGSO) in cooperation with all state and territory racing and gaming authorities. These authorities provide data on turnover, expenditure, and government revenue for each form of gambling within their jurisdiction. Where actual data are not available, the relevant authorities are encouraged to estimate the data and provide explanations of estimation methods.

The reference period for the 38th edition of AGS is the 2020–21 financial year. Timeseries are available back to 1995–96, however, may be affected by certain events such as the introduction of point of consumption (POC) tax.

The State, Product and Summary output tables should be read in conjunction with these Explanatory notes as they contain key information relating to background, definitions, jurisdiction specific legislation and other developments.

1.1. Background

The development of statistics on gambling on a national basis was formally proposed at the June 1983 Conference of Government Racing Officials held in Darwin. At this conference, members agreed to draw attention to the relative absence of reliable economic and social data on gambling, and resolved that this information be collected, collated and shared on a national basis.

Led by the existing statistical collections of the (then) Tasmanian Racing and Gaming Commission (the Commission), other state and territory governments developed their own statistical databases to assist in the compilation of a national gambling statistical record.

At the September 1983 Racing and Gaming Ministers' Conference held in Melbourne, it was resolved:

That the conference approves the establishment of a national statistical data bank and each state and territory agree to submit all available racing and gaming statistics in a consistent format to the Tasmanian racing and gaming commission for collation and analysis.

In line with the conference resolution, the Commission, with the assistance of a firm of economic consultants, extracted from published records significant quantities of data relating to gambling turnover in each state and territory since 1972. The first consolidation and assessment of these data was produced for the Racing and Gaming Ministers' Conference in late 1984. At the Commission's request, the report was made publicly available.

The Tasmanian Gaming Commission (the renamed Commission) continued to produce annual statistics until 2004, when QGSO (formerly the Office of Economic and Statistical Research) within Queensland Treasury, was endorsed by jurisdictional department heads to produce the publication on an ongoing basis.

1.2. Events affecting data

Gambling policy and legislation

Gambling policy and legislation in Australia have traditionally been the role of the states and territories rather than the Commonwealth. Relevant state-based legislation is detailed in state and territory summaries in Section 3.

COVID-19 pandemic

From 11 March 2020, when the World Health Organization declared a global pandemic in response to the spread of COVID-19, Australian and state and territory governments implemented border closures, travel restrictions, mandatory quarantine, business closures and social distancing measures in efforts to contain the spread of the virus. This resulted in changes in the availability of gambling activities in Australia, with land-based gambling venues temporarily closed and major national and international sporting codes suspended.

Point of consumption tax

Changes in the way the wagering industry is structured, including the growth of online wagering, have led some jurisdictions to change the way they tax wagering. In July 2017, South Australia introduced a point of consumption (POC) tax on all wagers placed by South Australian residents, regardless of the location of the wagering operator. Soon after, the other states and the Australian Capital Territory introduced a POC tax. Only the Northern Territory remains without this tax on wagering services.

Table 1 Point of consumption tax and reporting in AGS

State/Territory	Date POC tax introduced	AGS edition first reported		
		35th edition AGS	36th edition AGS	37th edition AGS onwards
NSW	1 January 2019	x	x	✓
Vic	1 January 2019	x	x	✓
Qld	1 October 2018	x	x	✓
SA	1 July 2017	✓	✓	✓
WA	1 January 2019	x	x	✓
Tas	1 January 2020	x	x	✓
ACT	1 January 2020	x	x	✓
NT	No plans to introduce	x	x	x

As a result of the introduction of POC tax and subsequent changes to the way wagering data are collected, detailed breakdowns for 'Wagering' are no longer reported in AGS and represent a break in series.

The Northern Territory is the only jurisdiction not to introduce POC tax. To avoid double counting, an estimate of wagering turnover and expenditure figures for Northern Territory residents only has been reported in the 37th and subsequent editions of AGS. In this regard, the Northern Territory figures also represent a break in series and comparisons with previous figures are not appropriate.

1.3. Cautionary note

While all care has been taken in the preparation of AGS, each jurisdiction has its own systems, processes and reporting methods, and the availability of data can vary. Thus, care should be taken when comparing data between jurisdictions.

All tables should be read in conjunction with the Explanatory notes. In some instances, data contained in previous editions have been corrected or amended. These corrections or amendments are noted within the relevant table(s).

2.2. Glossary

The following terms are used in AGS:

Casino	Figures represent wagers at casinos and include wagers on table games, gaming machines and keno systems.
Casino turnover	For the purposes of this report, casino turnover is represented by handle, which is the amount of money exchanged for gaming chips at a gaming table. Unfortunately, it is not possible to measure the total amount wagered (including re-investment of winning bets) at table games. Therefore, care should be taken if analysing casino turnover figures.
Expenditure	These figures relate to the net amount lost or the amount wagered less the amount won. Alternatively, it is the gross profit due to the operators of each form of gambling.
Gambling	The placement of a wager or bet on the outcome of a future uncertain event. Gambling includes gaming and wagering activities. The statistics presented in this publication are for legalised regulated gambling. In addition, the statistics for each individual state or territory include turnover and expenditure generated by overseas and interstate visitors as well as those generated by residents of that state or territory.
Gaming	All legal forms of gambling other than wagering, such as lotteries, gaming machines, casino, interactive gaming and minor gaming.
Gaming machines	All jurisdictions, except Western Australia, have a state-wide gaming (poker) machine network operating in clubs and hotels. The data reported under this heading <u>exclude</u> gaming machine data from casinos. Gaming machines accurately record the total value of bets on gaming machines, including bets made using credits won during play. Turnover is the amount of money bet, regardless of whether that money is won or lost. Turnover does not represent player losses. Thus, turnover is an actual figure for each jurisdiction. In most jurisdictions, operators must return at least 85 per cent of wagers to players as winnings, either by cash or a mixture of cash and product over the lifetime of the gaming machine. In some jurisdictions, gaming machines may be linked together to offer major jackpots.
Government revenue	The revenue received by state governments from gambling activities that are subject to state taxes and levies.
Gross household disposable income	Household disposable income (HDI) is the gross household income less: <ul style="list-style-type: none"> • income tax payable • other current taxes on income, wealth etc. • consumer debt interest • interest payable by unincorporated enterprises and dwellings owned by persons • net non-life insurance premiums • other current transfers payable by households.

When interpreting gambling figures as a proportion of HDI, by state and territory, users of the data should note that such data represent expenditure within the jurisdiction concerned, and therefore should not be adjusted for interstate or international gamblers. No relevant data are collected on interstate gamblers.

Interactive gaming

Gambling on activities conducted via the internet. It specifically excludes wagering in the form of racing and sports betting, keno and lotteries via the internet. Interactive gambling services provided to Australian residents by an internet casino are banned under the Commonwealth *Interactive Gambling Act 2001* (IGA) which came into effect in August 2001.

Keno

Keno is a game where a player wagers that their chosen numbers match any of the 20 numbers randomly selected from a group of 80 numbers via a computer system or a ball-draw device. Keno payouts are established by rules and consist of a fixed pay scale (independent of the total wager made on the game) and, in some cases, a jackpot component.

Lotteries

Includes lotteries, lotto, pools and instant scratchies. In June 2018, pools was withdrawn from the Australian lottery market.

Minor gaming

The collective name given to raffles, bingo, lucky envelopes and the like.

Point of consumption tax (on Wagering)

A tax collected from betting operators in all states and territories, except the Northern Territory, to generate revenue from wagering. "Point of consumption" means the tax is payable where the bet was placed, although in some jurisdictions, operators are permitted to rely on the address

information of account-based customers. Gambling products including gaming machines, casino games and lotteries are not subject to the tax. Also refer to Section 1.2.

Population Mean estimates of the population aged over 18 years are presented below. The same caveat relating to the influence of visitors on the estimates reported in the Household disposable income (HDI) tables is also relevant to the interpretation of those reported in the per capita tables.

'Real' variables All dollar figures are given in nominal terms except where a table is denoted as being in real terms. Real dollar figures have had the effects of inflation removed. These values are calculated by specifying a base year (in this instance 2020–21) and 'deflating' each previous year by the Consumer Price Index (CPI). This means that all data in a table showing real values may be compared directly, the effects of inflation having been removed.

The CPI is a measure of change over time in the retail price of a constant basket of goods and services which is representative of consumption patterns of households in metropolitan areas.

Turnover An expression used to describe the amount wagered. This does not include any additional charges that may also be paid at the point of purchase, such as selling agents' commission in the case of lotteries (except where noted in tables). Electronic gaming machine (EGM) turnover, relates to credits played in an EGM, rather than the amount of money inserted into the EGM.

Wagering All legal forms of gambling on racing, sporting events and other approved events (e.g., elections).

New developments

There were no changes to legislation in 2020-21.

General industry information

COVID-19 affected the industry beginning March 2020 and throughout 2020-21.

During the year, various COVID-19 closures and restrictions were applied to hotels, clubs and casinos. These restrictions impacted all forms of gambling activity at these venues, including gaming machines, table games, keno and wagering. Even when open, gaming venues were typically operating at reduced capacity due to social distancing rules and capacity constraints. Consequently, the gambling data reported in the 38th edition of AGS should be considered in the context of these restrictions.

The figures presented for New South Wales in this publication were provided by the Independent Liquor and Gaming Authority, Liquor and Gaming NSW and the NSW Department of Enterprise, Investment and Trade.

Number of operating gaming machines (at 30 June 2021)

- (a) For gaming revenue higher than \$1 million from 2011, rates shown are before the 1.85 percentage point ClubGRANTS Scheme (formerly Community Development and Support Expenditure (CDSE) scheme) duty rate reduction. Under the ClubGRANTS Scheme, marginal duty rates on gaming revenue above \$1 million are reduced by 1.85 percentage points if clubs contribute 1.85% of gaming revenue in excess of \$1 million to eligible community projects.
- (b) For gaming revenue higher than \$1 million prior to 2011, rates shown are before the 1.5 percentage point Community Development and Support Expenditure (CDSE) Scheme duty rate reduction. Under the CDSE Scheme, marginal duty rates on gaming revenue above \$1 million are reduced by 1.5 percentage points if clubs contribute 1.5% of gaming revenue in excess of \$1 million to eligible community projects.
- (c) For clubs earning gaming revenue above \$1 million a year from 1 September 2007, the benefit of the tax-free threshold in the \$200,000 to \$1 million revenue range will be withdrawn dollar for dollar as gaming revenue exceeds \$1 million, with complete withdrawal when revenue reaches \$1.8 million.

Clubs annual tax rates

Annual tax rates over \$1,000,000 include a 0.4% contribution to the Infrastructure Grants (Category 3) of the ClubGRANTS Scheme.

Clubs that make more than \$1 million in gaming machine profits annually can either:

- Pay an additional 1.85% on the amount over \$1 million.
- Contribute the same amount to community projects under the ClubGRANTS Scheme.

3.2. Victoria

Legislation

Legislation governing the regulation, supervision, and control of gambling activities in Victoria includes:

- *Casino Control Act 1991*
- *Casino (Management Agreement) Act 1993*
- *Gambling Regulation Act 2003*
- *Racing Act 1958*
- *Victorian Gambling and Casino Control Commission (VGCCC) Act 2011*.

The Victorian legislation can be accessed from the Victorian Legislation and Parliamentary Documents website at <https://www.legislation.vic.gov.au/> under Victorian Law Today.

New developments

Point of consumption (POC) tax

POC tax commenced in Victoria on 1 January 2019. The POC tax applied at a rate of eight per cent of the net wagering revenue derived from all wagering and betting activities by customers located in Victoria for the period 1 January 2019 to 30 June 2021. From 1 July 2021, the POC tax applies at a rate of ten per cent of the net wagering revenue derived from all wagering and betting activities by customers located in Victoria.

In Victoria, the face value of any free bets placed by a customer are considered part of net wagering revenue and net winnings paid in relation to free bets are considered part of winnings paid. As a result, the reported wagering expenditure will be higher than the actual net amount lost or the gross operator profit.

General industry information

Impacts of COVID-19 restrictions:

- all licensed hotels/clubs and Melbourne Casino ceased gaming between July – October 2020 and reopened on 9 November 2020.
- all licensed hotels/clubs and Melbourne Casino continue to cease gaming on various dates in February and June 2021.
- all Keno retail outlets ceased in August and reopened on 17 September 2020.

Consequently, the gambling data reported in the 38th edition of AGS was impacted by these restrictions/closures.

New developments

As part of the Queensland Government's response to the Tackling Alcohol Fuelled Violence Policy independent evaluation, the *Gaming Machine Act 1991* was amended to provide greater transparency around gaming machine licensing decisions on 7 April 2021. Significant gaming decisions are now published online, and objectors are notified of certain gaming decisions.

On 7 April 2021, the *Wagering Act 1998 (Wagering Act)* was amended to remove the mandatory requirement to round down the dividend payable where wagers are placed on short-priced favourites. This provides additional flexibility for Queensland's sport and race wagering licensee.

The *Interactive Gambling (Player Protection) Act 1998*, *Racing Integrity Act 2016* and *Wagering Act* were also amended on 7 April 2021 to codify the existing National Consumer Protection Framework for Online Wagering ban on certain types of wagering inducements. These amendments allow the nationally agreed ban to be administrated and enforced in Queensland more effectively.

New developments

Gambling Reform to SA gambling laws

On 12 December 2019, State Parliament passed legislation to significantly reform the regulation of gambling in South Australia.

In support of these reforms, amendments have been made to the regulations under each of the gambling acts, changes made to advertising and responsible gambling codes of practice, and new gambling administration guidelines and community impact guidelines developed.

New requirements have been introduced relating to the use of facial recognition technology, to assist licensees to identify barred persons entering a gaming area. Other modern technology has also been permitted, including banknote acceptors and ticket-in ticket-out functionality on gaming machines.

Key reforms – general

New Regulatory Framework

On 3 December 2020, the *Gambling Administration Act 1995* was repealed and a new administrative and regulatory framework introduced under a new Act, the *Gambling Administration Act 2019 (Act)*

The new Act:

- sets out the powers and functions of the Liquor and Gambling Commissioner including the power to:
 - conduct an inquiry, proceedings or give directions
 - prescribe advertising and responsible gambling codes of practice
 - issue guidelines (the gambling administration guidelines)
 - appoint persons as Inspectors for the purposes of a gambling act
 - take disciplinary action against gambling providers.
- introduces new welfare barring arrangements which allows gambling providers to respond to requests or to initiate a barring order in relation to multiple venues and to impose a barring period of more than three months or for an unlimited period.
- requires the Commissioner to establish a new Gambling Advisory Council.
- sets out various administrative requirements.

New regulations to support the new Act, the *Gambling Administration Regulations 2020*, also commenced on 3 December 2020.

Key reforms specific to gaming machine licensees (hotels and clubs)

New Gambling Administration Guidelines

On 3 December 2020, new Gambling Administration Guidelines (Guidelines) replaced prescription notices previously issued by the former Independent Gambling Authority (IGA) in relation to:

- account based cashless gaming systems
- automated risk monitoring systems
- courses of training for employees
- the approval of facial recognition systems
- the approval of ticket-in ticket-out (TITO) systems.

New gaming machine licence conditions

On 3 December 2020, the Attachment A and Attachment B licence conditions, to which a gaming machine licence is subject, were amended.

Attachment A licence conditions were amended to insert the following:

- licensees being required to enter into a responsible gambling agreement
- licensees to provide for the purpose of gambling research, information recorded by certain systems approved to be operated in connection with gaming machines (e.g., automated risk monitoring systems etc.) when requested by the Commissioner
- certain licensees with gaming machines that are able to be operated by the insertion of a banknote, must operate a facial recognition system
- licensees must ensure that gaming managers and gaming employees undertake a course of responsible gambling training.

Attachment B licence conditions which are imposed on all gaming machine licensees were amended to include:

- that licensees are not to conduct gaming operations between 2am and 8am unless Cash Redemption Terminals are disabled
- licensees are to display an up-to-date copy of their gaming machine licence at the principal entrance to the gaming area
- a licensee that does not have a mandatory requirement (under Attachment A) to operate a facial recognition system must not voluntarily operate such a system for the purposes of identifying a barred person entering a gaming area unless that system has been approved by the Commissioner and be operated in accordance with the operational requirements prescribed under the Gaming Machine Regulations 2020.

Facial recognition technology

Facial recognition technology supports and assists licensed venues meet their responsibilities of identifying barred patrons by alerting gaming venue staff when a barred patron is detected entering the gaming room.

From 3 December 2020, the holder of a gaming machine licence must for the purposes of identifying barred persons entering a gaming area, operate a facial recognition system if the gaming machine licence for the premises authorises the operation of thirty (30) or more gaming machines (being a reference to the number of gaming machine entitlements affixed to a licence), where any one (1) of which may be operated by the insertion of a banknote.

Licensees not subject to this mandatory requirement may also voluntarily choose to implement this technology to support their responsible gambling operations.

Only facial recognition systems that have been evaluated against the Guidelines and approved by the Commissioner will be allowed to operate in gaming venues for this purpose.

Licensees must, by notice displayed at each entrance to a gaming area, notify each person who is about to enter that a record of the person's facial image will be made by means of the approved facial recognition system.

A facial recognition system must not be used for, or in connection with, any of the following:

- encouraging or providing incentives to a person to gamble
- customer loyalty programs
- a lottery within the meaning of the *Lotteries Act 2019*
- identifying a barred person in respect of premises other than the licensed premises in relation to which the system is operating
- any other purpose notified by the Commissioner to the system provider or licence holder.

Employee training

From 3 December 2020, courses of training for “gaming managers” and “gaming employees” must be approved by the Commissioner and comply with the course requirements prescribed in the gambling administration guidelines.

A course of training previously recognised under the *Gaming Machines Act 1992* was, on 3 December 2020, taken to be an approved course of training under amended sections in that Act.

Gaming managers and employees must continue to undertake “basic training” and “advanced training” in accordance with the codes of practice.

Cash facilities limitations

From 3 December 2020, access to cash using any one cash facility on the licensed premises during a 24 hour period was limited to \$250. This means that cash withdrawals using EFTPOS is now limited to \$250 per card per 24 hour period.

Amounts accessed through EFTPOS are in addition to the use of ATMs that also have a limit of \$250 per card per 24 hour period which was previously implemented.

Minors and gaming areas

From 3 December 2020, offences in relation to minors in gaming areas are now able to be expiated:

From the same date, a minor who operates a gaming machine is not entitled to any winnings he or she may have made on the machine and those winnings are to be forfeited to the Commissioner and must be paid into the Gamblers Rehabilitation Fund (GRF).

Banknote Acceptors/Ticket Enabled Devices

On 3 December 2020 the *Gaming Machines Act 1992* was amended to allow gaming machines in South Australia to be operated using banknotes as well as coin. Only banknote denominations of up to \$50 are allowed to be inserted into a gaming machine, subject to a credit balance limit of \$100.

This means that no additional banknotes are able to be inserted into the gaming machine until the cash value of the credit balance on the gaming machine drops below \$100.

The operation of gaming machines by the insertion of a ticket (ticket-in ticket-out' or TITO) is now also allowed, subject to the following limits (prescribed by regulation) on how much can be inserted and redeemed from a gaming machine:

- the insertion of a ticket must not cause the credit machine of a gaming machine to exceed \$149.99
- the maximum value of a ticket from a gaming machine cannot exceed \$5,000
- unredeemed tickets expire after 12 months from issue.

Systems operated in connection with gaming machines, as well as training courses to be undertaken by gaming managers and gaming employees, must be approved by the Commissioner.

Queensland Government Statistician's Office

Approval of games and gaming machines

On 30 July 2020, the fixed time limits on the approval of games and gaming machines (5 year and 10 year approval limits respectively) were repealed.

New measures now allow the Commissioner to vary or revoke the approval of a game or gaming machine.

Approval of certain systems to be operated in connection with gaming machines

Certain systems to be operated in connection with gaming machines (e.g., account based cashless gaming systems and automated risk monitoring systems etc.) must be approved by the Commissioner and must comply with the requirements of the Act and any applicable gambling administration guidelines.

From 3 December 2020, the existing automated risk monitoring system (ARMS) continued to be taken to be an approved system for the purposes of the Act.

On-screen messaging

On 3 December 2020, the mandatory requirement for all gaming machines to be capable of displaying on-screen messages on or after 31 December 2020 was repealed. This means that from 3 December 2020, only gaming machines connected to an account based cashless gaming system (which therefore must provide pre-commitment) are required to be capable of displaying on-screen messages.

Prohibition of links between dealers and other licensees

From 30 July 2020, the prohibition on links between the holders of gaming machine dealers' licences and gaming machine service licences was repealed.

This change means that a gaming machine dealer is now able to apply to also hold a gaming machine service licence and to seek approval of persons to be gaming machine technicians to support the rollout of new gaming machines and technology.

Designated applications and community impact assessment guidelines

On 3 December 2020, the Social Effect Inquiry Process and Principles which were prescribed by the former IGA to govern applications for new gaming machine licences were replaced with a new assessment based on the concept of Community Impact, consistent with the test implemented through recent amendments to the *Liquor Licensing Act 1997*.

From this date, the Commissioner will only be able to grant a 'designated application' (being an application for a new gaming machine licence, or an application which has been determined by the Commissioner to be a designated application), if satisfied that to do so is in the community interest.

To make this assessment, the Commissioner is required to take into consideration:

- harm that might be caused by gambling – whether to a community as a whole, or a specific group within that community
- cultural, recreational, employment or tourism impacts
- social impact in the community.

If an application is determined by the Commissioner to be a designated application, applicants must provide evidence that demonstrates that the application would be in the community interest.

Members of the community are also able to make submissions to the Commissioner, explaining why they believe a designated application should, or should not, be granted.

In determining whether an application is deemed to be a 'designated application', the Commissioner may have regard to (but is not limited to only having regard to):

- Net Gambling Revenue (NGR) data
- Social profile information, such as the Socio-Economic Indexes for Areas (SEIFA) scores at the Statistical Area Level 2 (SA2) and the Local Government Area (LGA)
- NGR SEIFA data published by the Australian Bureau of Statistics at the SA2 and LGA for the statistical area where the proposed premises are to be located
- the extent of the increase in the number of gaming machines
- the scale of the proposed gaming operations relative to the other business to be conducted at, or in connection with, the premises
- the length of time the premises has been licensed to operate gaming machines
- overall capacity of the licensed premises.

Removal of a gaming machine licence (relocation)

From 3 December 2020, a gaming machine licence is able to be removed and gaming machine entitlements reallocated from one set of premises to another with the associated liquor licence if both premises are in the same 'locality'.

If an application is determined by the Commissioner to be a designated application (as outlined above), for example due to a significant increase in the number of gaming machines on the premises, the applicant will also be required to satisfy the new community impact assessment.

Typically, the definition of 'locality' has been determined as being:

Adelaide Metropolitan Area - the area within a 2km radius of the site of the relevant premises.

Outside the Metropolitan Area - applicable to country cities, town or communities, unless remotely located, the area within a 5km radius of the site of the relevant premises.

Regional - the applicant should, choose an appropriate locality keeping in mind that the locality of a premises is the area most likely to be affected by the grant of the application.

Special provisions relating to gaming machine licences held by clubs

From 3 December 2020, new administrative measures governing the amalgamation and transfer of certain gaming machine licences and gaming machine entitlements held by clubs were introduced.

Amalgamation of clubs

If:

- (a) two or more associations incorporated under the *Associations Incorporation Act 1985* amalgamate under that Act, and
- (b) the amalgamated club is to carry on business at the premises of one of the amalgamating clubs, and
- (c) an application is made to the Commissioner to amalgamate the liquor licences of the clubs under the *Liquor Licensing Act 1997*, and
- (d) one or more of the amalgamating clubs holds a gaming machine licence,

the Commissioner can, on application, issue a replacement copy of the gaming machine licence for the amalgamated club and reallocate the gaming machine entitlements to the amalgamated club provided the premises of the amalgamated club are the premises to which the gaming machine licence relates.

The Commissioner may, on receiving an application for amalgamation, determine that the application is a 'designated application' which would also require the applicant to satisfy the new community impact assessment requirements.

Transfer of gaming machine entitlements

The holder of a club licence that also holds a gaming machine licence will now, be able to transfer gaming machine

entitlements, absolutely or for a limited period, to another holder of a club licence that holds a gaming machine licence, under an arrangement approved by the Commissioner.

The Commissioner may, on receiving an application to transfer gaming machine entitlements, determine that the application is a 'designated application' which would also require the applicant to satisfy the new community impact assessment requirements.

Approved trading system - intention to reduce gaming machine numbers

The South Australian Parliament has signalled its intention in these reforms to maintain the reduction in the number of gaming machines operating in South Australia, by including within the *Gaming Machines Act 1992* a "statutory objective" prescribed by regulation (i.e., to reduce the number of gaming machines to a number not exceeding 13,081).

As part of the implementation of these reforms, a review of the current trading system will be undertaken next year, with the review required to be completed and a report provided to the Government by 12 December 2022.

In the meantime, the current trading system remains available to licensees to buy and sell gaming machine entitlements.

Approval of responsible gambling agreements

Amongst the changes to the gaming machine licence conditions prescribed in the *Gaming Machines Act 1992*, it is now a requirement that gaming operations must not be conducted unless the licensee has entered into a responsible gambling agreement (the form of which must be approved by the Commissioner) with an approved industry body.

Club Safe and Gaming Care, which are industry bodies which were previously recognised under the *Gaming Machines Act 1992*, continued to be taken to be approved industry bodies for the purposes of that Act.

Loyalty programs

Under the Codes of Practice, from 3 December 2020, a loyalty program is an acceptable loyalty program if it is a structured program which:

- (a) is conducted in accordance with published terms and conditions; and
- (b) is advertised in a manner consistent with the advertising requirements for the licensees gambling products; and
- (c) offers rewards proportionate to gambling activity (including non-monetary privileges attached to tiers in a stepped rewards system), and
- (d) offers regular activity statements; and
- (e) it has been approved by the Commissioner in terms of its rules and conditions, risk monitoring processes and the manner in which it is to be advertised and promoted.

The Commissioner determined that an acceptable loyalty program which may have been approved under the codes of practice in force immediately before 3 December 2020 continued to be taken to be an acceptable loyalty program from that date.

Recovery of administration costs

The reform package includes a requirement that the Commissioner must, on an annual basis, recover from licensees the costs associated with administering and regulating the *Gaming Machines Act 1992*.

Implementation of a cost recovery model is expected to be deferred until after 12 December 2021.

Key reforms specific to authorised betting operators

Approved contingencies

From 3 December 2020, prior to approving or varying contingencies, the Commissioner needs to be satisfied that betting operations in relation to such contingencies do not allow betting in relation to amateur sporting events or sporting events where the only participants are children.

Employee training

It is proposed that courses of training to be undertaken by staff involved in betting operations, as required under the Code of Practice, will need to be approved by the Commissioner in the future.

Betting shop licence

On 3 December 2020, the betting shop class of licence was repealed.

Requirements to be fit and proper

From 3 December 2020, the Commissioner must, on the grant or renewal of an 'on-course totalisator betting licence', 'bookmakers licence' or 'agents licence', be satisfied that the applicant is a fit and proper person to hold the licence.

The Commissioner must also be satisfied that a person seeking to be approved as a designated person under the "major betting operations licence" is also a fit and proper person to become a designated person in relation to the licensee.

- *Racing and Wagering Western Australia Act 2003*
- *Racing Bets Levy Act 2009*
- *Racing Restriction Act 2003.*

New developments

Privatisation of the TAB

During the reporting year, the Western Australian Government continued to progress work on the development of a legislative framework to regulate the operation of the Western Australian TAB (the WA TAB) should it be divested from Racing and Wagering Western Australia.

NOTE: At the time of publication of this report, the market process for the sale of the WA TAB had been terminated. The sale of the WA TAB required the balancing of the interests of the racing industry and WA taxpayers, with the commercial realities of the market. Through the market process it became clear that the long-term interests of both the State and racing industry could not be met through the offers presented.

On this basis, the McGowan Government decided to retain ownership of the WA TAB and Racing and Wagering Western Australia will continue to operate the WA TAB to the benefit of the local racing industry.

Perth Casino Royal Commission

On 5 March 2021, the Perth Casino Royal Commission (Royal Commission) was established to inquire into and report on the affairs of Crown Casino Perth and to report on the suitability of the licensee of Perth Casino to hold the casino licence, and on the regulatory framework and matters that might enhance the Gaming and Wagering Commission's future capability and effectiveness.

In the following reporting year (2021-22), the Royal Commission delivered its final report to the Governor of Western Australia, the Hon Kim Beazley AC, and to the office of the Premier, the Hon Mark McGowan MLA on 4 March 2022. The [Final Report](#) was tabled in State Parliament on 24 March 2022.

Amendments to Regulations

The Racing Bets Levy Amendment Regulations 2021 came into effect from 1 May 2021 to amend the rate and method for calculating the Racing Bets Levy for operators of a betting exchange (i) below \$3 million in turnover – 1 per cent of turnover (no change); and (ii) above \$3 million in turnover - 31.8 per cent of gross revenue (for all race meetings, standard or premium). The change of rate and methodology takes into consideration the unique business model of a betting exchange and the manner in which it generates income (from commission it charges winning clients).

General industry information

For the period, the casino gaming operations tax rates were as follows:

- Electronic gaming machines - 12.42% on and from 24 December 2015
- Fully automated table games - 12.92% on and from 24 December 2014

Queensland Government Statistician's Office

- Table games - 9.37% on and from 24 December 2014
- International commission business tax - 1.75% on and from 24 December 2014 (a guaranteed minimum of \$36.2 million was required to be paid between 1 July 2014 to 30 June 2018).

As of 30 June 2021, Crown Perth had approval to operate a maximum of 350 table games, and 2,500 electronic gaming machines.

New developments

- The Tasmanian Liquor and Gaming Commission introduced mandatory pre-commitment for electronic gaming machines in the premium player loyalty program operating in casinos on 1 November 2020 and it was fully operational from 1 September 2021.
- Gaming machines that operated on the Spirit of Tasmania ferries by Admirals Casino Pty Ltd ceased operation on 21 June 2021. Admirals surrendered its licence to operate gaming machines on 15 September 2021.

General industry information

- Totalisator and fixed odds wagering are offered in Tasmania by UBET TAS Pty Ltd (previously known as TOTE Tasmania), a subsidiary of Tabcorp Holdings Limited. UBET TAS offers wagering products on thoroughbred, harness and greyhound racing, including fixed odds wagering products for sports betting and race wagering.
- Bookmakers offer traditional fixed price wagering on course at certain racing events in Tasmania.
- There are two casinos operating in Tasmania: Wrest Point in Sandy Bay (Hobart) and the Country Club at Prospect (Launceston). Both casinos are owned and operated by the Federal Group.
- Ninety-three hotels and clubs in Tasmania offered gaming in the form of gaming machines and keno. There were also hotels and clubs that offered keno only. The gaming services were operated by Network Gaming, which is part of the Federal Group.
- Thirty-six gaming machines operated on the Spirit of Tasmania I and II ferries by Admirals Casino Pty Ltd.
- There are no providers of major lotteries currently operating in Tasmania. However, two companies: Tattersalls Sweeps (licensed in Victoria) and Golden Casket (licensed in Queensland) hold foreign games permits that allow their products to be offered from accredited outlets in Tasmania.
- Minor gaming in Tasmania consists of activities such as lucky envelopes (e.g., beer/cash tickets), bingo and raffles conducted for the benefit of not-for-profit organisations. Various minor games are currently approved.

Notes to the Tables for 2020-21

Racing and sports betting	<p>Government revenue is primarily derived from a Point of Consumption tax (POC tax).</p> <p>In addition, UBET TAS pay an annual wagering levy, equivalent to \$1,498,500 for 2020-21. The levied amount has not been included in the government revenue from wagering figures.</p> <p>Revenue from betting exchanges is no longer recorded in interactive gaming and has been allocated under government revenue from wagering. No betting exchanges have been licensed in Tasmania since September 2016.</p>
All	<p>Expenditure data reported by Tasmania in years prior to 2019-20 has been monthly in arrears, aligning with timing of taxation collected. Expenditure data for 2019-20 onwards is shown in the month the activity occurred.</p>

Notes: These data should be read in conjunction with the explanatory notes.

(1) Excludes community keno, from this period on.

(2) Community keno was previously included in casino expenditure.

(3) Includes Sports Bookmakers, On course, Betting exchange and Totalizator, from this period on.

(4) Licensee(s) relaunched.

(5) Pools was withdrawn from the Australian Lottery Market on 23 June 2018.

(6) Includes Mail-order lotteries.

(7) The 2019-20 NT wagering Turnover and Expenditure figures are an estimate of NT residents only. This estimate is provided to avoid double counting given other jurisdictions are now operating under a point of consumption tax arrangement. In this regard, the 2019-20 figures represent a significant break in time series and comparisons with previous figures are not appropriate.

Notes: These data should be read in conjunction with the explanatory notes and other turnover tables in this publication.

(1) Includes Sports Bookmakers, On course, Betting exchange and Totalizator, from this period on.

(2) Point of consumption tax introduced and applied from 1 January 2019. This figure only contains data from July 2018 to December 2018, pre point of consumption tax.

(3) Total Turnover derived from TAB Limited and NSW Licensed Bookmaker's authorised under Section 16(1) and 19(2) of the Betting and Racing Act 1998.

(4) The 2019–20 NT wagering Turnover and Expenditure figures are an estimate of NT residents only. This estimate is provided to avoid double counting given other jurisdictions are now operating under a point of consumption tax arrangement. In this regard, the 2019–20 figures represent a significant break in time series and comparisons with previous figures are not appropriate.

(5) Does not include turnover for wagering operators authorised to conduct betting operations in South Australia.

(6) Figure represents Pari-mutuel and Sports bet only. Trackside figure (139.560) not included.

(7) NSW Turnover derived from TAB Limited and NSW Licensed Bookmaker's authorised under Section 16(1) and 19(2) of the Betting and Racing Act 1998.

(8) For this and previous years, reflects the wagering turnover of Tasmanian licensed providers only.

(9) Figure represents Pari-mutuel and Sports bet only. Trackside figure (111.991) not included.

Notes: These data should be read in conjunction with the explanatory notes and other turnover tables in this publication.

(1) Includes Sports Bookmakers, On course, Betting exchange and Totalizator, from this period on.

(2) Point of consumption tax introduced and applied from 1 January 2019. This figure only contains data from July 2018 to December 2018, pre point of consumption tax.

(3) Total Turnover derived from TAB Limited and NSW Licensed Bookmaker's authorised under Section 16(1) and 19(2) of the Betting and Racing Act 1998.

(4) The 2019–20 NT wagering Turnover and Expenditure figures are an estimate of NT residents only. This estimate is provided to avoid double counting given other jurisdictions are now operating under a point of consumption tax arrangement. In this regard, the 2019–20 figures represent a significant break in time series and comparisons with previous figures are not appropriate.

(5) Does not include turnover for wagering operators authorised to conduct betting operations in South Australia.

(6) Figure represents Pari-mutuel and Sports bet only. Trackside figure (139,560) not included.

(7) NSW Turnover derived from TAB Limited and NSW Licensed Bookmaker's authorised under Section 16(1) and 19(2) of the Betting and Racing Act 1998.

(8) For this and previous years, reflects the wagering turnover of Tasmanian licensed providers only.

(9) Figure represents Pari-mutuel and Sports bet only. Trackside figure (111,991) not included.

Notes: These data should be read in conjunction with the explanatory notes and other expenditure tables in this publication.

(1) Includes Sports Bookmakers, On course, Betting exchange and Totalizator, from this period on.

(2) Includes expenditure for wagering operators authorised to conduct betting operations in South Australia, from this period on.

(3) Point of consumption tax introduced and applied from 1 January 2019. This figure only contains data from July 2018 to December 2018, pre point of consumption tax.

(4) Total TAB Limited wagering revenue and net NSW revenue derived from Betting Operators as per section 13A of the Betting Tax Act 2001.

(5) The 2019–20 NT wagering Turnover and Expenditure figures are an estimate of NT residents only. This estimate is provided to avoid double counting given other jurisdictions are now operating under a point of consumption tax arrangement. In this regard, the 2019–20 figures represent a significant break in time series and comparisons with previous figures are not appropriate.

(6) Figure represents Pari-mutuel and Sports bet only. Trackside figure (29.289) not included.

(7) Net NSW revenue derived from TAB Limited and Betting Operators as per section 13A of the Betting Tax Act 2001.

(8) From 2020–21, wagering expenditure reflects wagering by Tasmanian residents with all licensed providers, including those in other jurisdictions. Prior to 2020–21, wagering expenditure reflects wagering with Tasmanian licensed providers only.

(9) Figure represents Pari-mutuel and Sports bet only. Trackside figure (23.205) not included.

Notes: These data should be read in conjunction with the explanatory notes and other expenditure tables in this publication.

(1) Includes Sports Bookmakers, On course, Betting exchange and Totalizator, from this period on.

(2) Includes expenditure for wagering operators authorised to conduct betting operations in South Australia, from this period on.

(3) Point of consumption tax introduced and applied from 1 January 2019. This figure only contains data from July 2018 to December 2018, pre point of consumption tax.

(4) Total TAB Limited wagering revenue and net NSW revenue derived from Betting Operators as per section 13A of the Betting Tax Act 2001.

(5) The 2019–20 NT wagering Turnover and Expenditure figures are an estimate of NT residents only. This estimate is provided to avoid double counting given other jurisdictions are now operating under a point of consumption tax arrangement. In this regard, the 2019–20 figures represent a significant break in time series and comparisons with previous figures are not appropriate.

(6) Figure represents Pari-mutuel and Sports bet only. Trackside figure (29.289) not included.

(7) Net NSW revenue derived from TAB Limited and Betting Operators as per section 13A of the Betting Tax Act 2001.

(8) From 2020–21, wagering expenditure reflects wagering by Tasmanian residents with all licensed providers, including those in other jurisdictions. Prior to 2020–21, wagering expenditure reflects wagering with Tasmanian licensed providers only.

(9) Figure represents Pari-mutuel and Sports bet only. Trackside figure (23.205) not included.
