

Safe Recovery Card

Ensure your farm vehicle or equipment is **RECOVERED** safely

R*ethink* using farm equipment if there is a likelihood of getting bogged

Exercise caution and have a *recovery plan* in place

C*ommunication* is vital between you and the assisting vehicle

Only use *rated recovery points* on the vehicle approved by the manufacturer

Vary *tyre pressure* by deflating to manufacturer's recommendations

Exclude all persons from the tow-line area by creating an *exclusion zone*

Recovery straps and attachments should be *rated* for the weight and type of work involved

Ensure recovery equipment is *maintained* according to manufacturer's instructions

D*amper* use will reduce recoil and minimise the chances of injury
